

Take 3 Months

Description:

Every business owner is getting a wake up call. For some people, the decision to buy a business could be driven by the need to secure their future. For others, it might be time to sell their business and choose a different path. No matter where you are at, *The Invisible Entrepreneur* is a book that guides you to understand what you need when navigating through times such as these.

Most business owners desire freedom of choice and want to know that they have a sustainable, secure and profitable business. However, the reality is that most small businesses are vulnerable to external circumstances. *The Invisible Entrepreneur* shows you how external change does not need to impact you now or in the future.

So, do yourself a favour and invest \$34.95 (plus postage). This will be the best investment you could currently make because what if your future was mapped out in *The Invisible Entrepreneur*?
